Diani Beach is not just only one of the top paradise beaches in Africa. It also serves plenty of diving spots, where you will be able to learn scuba and accomplish your PADI diving license. But even if you already are a scuba diver, you fall in love with Diani's underwater water beauty. Discover turtles, whale sharks and more.

About us.
We started up our PADI center in two thousand and twelve (2012) in determination to bring the passion of scuba diving back to Diani Beach. Diving has declined since the 2000's because of high elevated pricing by current dive centers during that time. Having a strong will and motivation, we have made

our prices the most competitive in the whole of the east African coast line. Our dive operation consists of marine conservation minded people that have devoted their lives to do what they love, scuba dive. Being a small dive center we personalise the diving by always keeping a ratio of one dive master/instructor to four divers.
